KeyMacro is a simple way to create shortcuts from any keyboard shortcut. It also supports multi-shortcut support and allows all your favorite commands to be accessible with just one click. Simply use KeyMacro to bind hotkeys to your most common commands. With it you can save your hand and never have to remember your favorite keyboard shortcuts. Save any hotkey by dragging and dropping it from the Windows system tray. Or import hotkeys from third-party programs. This is it, there is no need to register for any programs or download anything. Just grab KeyMacro, go to where you want your command to be called and bind a hotkey. Start using your new favorite commands now by double-clicking any shortcut that has been imported. In addition, as you add new commands, they will be added to the hotkeys page where you can find all your keys. KEYMACRO Comments: - The most important features are keyboard shortcuts support and the ability to manage the list of hotkeys easily. - KeyMacro is very fast. - There is no need to register for any programs or download anything. - An introductory screen guides you through the installation process. - A simple and easy-to-use interface with the ability to customize the hotkey layout and style. - Customized hotkeys are displayed in the Windows system tray. - The default layout has already been set and you can freely edit the layout and style of your hotkeys. - Multiple key shortcuts can be used by one hotkey. - You can save and import hotkeys from third-party programs. - Any hotkey can be dragged and dropped into the window. - You can manage hotkeys in the hotkeys page, show your last used hotkeys and select the default hotkey that you want to use. - You can set the hotkey as a default action for a command that you wish to use frequently. - The default hotkeys have been added. - Supports both single and multi-hotkey layouts. - All the hotkeys can be disabled. - A log is kept to show the changes you made to the hotkey layout. - There is a built-in tool to convert hotkey files to.reg files. - You can directly access the hotkey settings dialog without opening the hotkeys page. - The hotkey manager can be restarted. - A backup function is available to save the current hotkey layout
