Sep 19, 2016 The links below, taken from Wikipedia, are listed in alphabetical order by topic: . The use of nitrocellulose in photography dates back to the 1860s when it was discovered that the paper film that was then used in cameras could be sensitized with the same chemicals used to make photographic prints. The term "photogenic" was first used in this context by William Fox Talbot in 1870, but his process suffered from poor sensitivity and a short shelf life for the film. In 1876, William Wallace Adam developed an improved process that could be chemically fixed, and by 1879, he had demonstrated a self-developing roll film that could be used to make photographic prints. Jun 28, 2017 . kreait Photo Finder Download | Photo Management Software | Find Photos | Easy Photo Book Maker | Photo Album Creator | Photo Organizer | Photo Video | Photo Maker | Photo Editor | Photo Software | Photo Storytelling Software Jun 28, 2017 .
