Sensory-motor function in motor neuron disease: an electrophysiological study. Muscle and nerve biopsies from patients with motor neuron disease (MND) were analysed with the aim of identifying early signs of the degeneration of the motor end plate and the neuromuscular junction. Ultrastructural analysis of the motor end plate showed that

Category:Audio software for Windows Category:Cakewalk softwarePages Monday, October 16, 2009 Challenge #100: Inspiration A little over a year ago, I posted a picture on my Flickr account of a little girl I met named Olivia while volunteering at a soup kitchen. At the time, I told her parents that I wanted to meet her again and I was looking forward to it. Well, I got the chance to meet her for a second time and I was able to spend time with her for a week. I didn't take any pictures of her this time, but I did take pictures of her home (thanks mom!) and her family (thanks dad!). After I got home, I worked on the picture I had taken while she was eating lunch. I used A Beautiful Mess color scheme and layers and added a border, a stamped sentiment, and a 2-D sticker. When I was done, I shared the picture with several of my online friends who are on the A Beautiful Mess Challenge blog. That picture was the start of my newest challenge on the BAM blog! This month's challenge is inspired by the picture I took of

Olivia and the five girls who were eating lunch with her. I chose to make a canvas. I used the same color scheme I used on the other picture (though not as much in this case). The girls are in their pajamas and their faces are covered in bubbles. In the background is a tree that I painted on and on the left is a red door. I painted the door with acrylic paint, then used stamps to create the words "Home" and "Gravity Falls". I chose to stamp the words with a Hero Arts stamp set called Wishes and a stamp from an American Crafts stamp set called Going Home. I created the snowflakes with a stamp from a South Seas Stamps set called Snowflake Ribbon. I stamped the tree with an Xyron stamp and the little house with a Hero Arts stamp. To make the snowflakes and the house red, I used markers and acrylic paint. I'm going to spend the rest of my time tonight painting, so I'll talk to you in the morning. Have a wonderful Monday! I would LOVE to have been able to meet Olivia. I'm so happy that you were able to. She is such a sweet little girl. My 2 1/2 year old would love to eat with a girl that age. Happy 2d92ce491b
