With a Garmin GPSr, without a computer, you can Unlock your GPSr to change the number of days you can use the GPSr before it recharges. It is very simple. I used it after un-locking my GPSr from out of reach of my dog. Garmin GPSr one button press, and viola, there is a brand new GPSr! This is very simple, there is just one file to download from this site. Once it is downloaded, the next time you start your Garmin, the Unlock menu will appear as shown below. Press the Menu button to select the Unlock menu. Then select the number of days you want. Press the Menu button again to select the OK option. Done! You just unlocked your Garmin for the number of days you want. All that is left is to connect your GPSr to your computer and download your data. How to uninstall Garmin GPSr  
Unlock generator v.1.9 by jtmouse.rar After installation, a "garmin\_log.txt" file will be created in the installation folder. Then you can uninstall the program like this: 1. Uninstall the current version of the program (or remove the "garmin\_log.txt" file); Extract the downloaded file "garmin\_unlock\_crack.zip" with WinRAR or 7-Zip and delete the extracted folder. Open the folder "C:\program files\Garmin\GPSr\1.9\unlock\data\unlocked\_logs\" (if the folder is not present, right click on the folder name and select New -> Folder). This file contains the logs of your GPSr. It is a text file, with only 1 line. To delete this line, open the text file in notepad (with notepad++) and delete the line. Then save the file as "garmin\_log.txt" and close it. Hi everyone, this may be an issue but I lost my config.ini.txt file. I have lost it when I restart my windows. It won't let me open any GPSr. Does anyone know how to repair it? Thanks for your help! Just have your GPSr turn off, wait 1 min, turn back on, and it will repair itself. If not, try restarting. Or you can try doing the following f3e1b3768c
