Main Features. Download: Akruiti is a hybrid word processing application that combines handwriting recognition and text input technology to save your time and efforts. With Akruiti you can type text directly on any handwriting input. That means you can use your pen as the input device. All in all, Akruiti is a great tool for writers and students, but also for writers who enjoy working with pen and paper. There are many software available in the market that can be used to write Oriya language. But you are always in search for best Oriya typing software. That's why you are here! After spending years of research, writing and testing, we have designed this Oriya Word Processor to offer the best solution for typing Oriya language text. This software is designed in such a way that it combines the best features of handwriting recognition and text input technology in one application. What does Akruiti offer? Akruiti is the word processor that allows you to type Oriya without needing to write everything down. When you type on Akruiti, the software will automatically recognize it for you. After typing, your text will be stored in the internal dictionary and the text that was typed will be entered into the computer's text box. You can then use any of the input methods (such as selection, copy, edit, and paste) to make changes to the text. This software offers some great features, but we want to let you know that if you need more features you can always add them later using the software's user interface. Additional Features. Akruiti is compatible with all Windows operating systems (including Windows 8, 7, Vista, and XP). Akruiti is a freeware (you can use it without having to pay any fee) and is very easy to use. Akruiti has an automatic and easy to use dictionary. You can now use a keyboard or use the handwriting recognizer to type. 2d92e491b
