Autodesk introduced an XML-based API in AutoCAD 2002 called the Extensible Markup Language (XML) API. XML is a markup language for exchanging data between applications. XML interfaces are available in AutoCAD 2004, and many third-party applications also use XML to exchange data with AutoCAD. XML interfaces are used to define points, lines, and surfaces in models, and to define linetypes, text styles, and other features. XML interfaces are available in AutoCAD 2010 and later. Customization options include 3D applications, application tools, and 3D animation. 3D applications have the ability to manipulate 3D objects. Most applications on AutoCAD allow for the import and export of text and dimensions. Integration with other software AutoCAD can be integrated with other CAD systems, as well as CAD tools such as AutoCAD Architecture, GeoDesigner, and Eagle CAD. See also

Infection by the human immunodeficiency virus type 1 (HIV) is responsible for a progressive immunodeficiency syndrome that may lead to death. This is the second most important pathogenetic cause of death after cancer, with the exception of accidents and murders. The mean survival time in treated patients is of 10 to 15 years, but a few patients survive for several decades. The virus is transmitted by sexual intercourse, contaminated needles or fluids or mother-to-child transmission. In Spain we can consider that the HIV infection epidemic is of epidemic scale. In this paper we review the main clinical implications of the infection by HIV and of its treatment and show the clinical implications of factors a1d647c40b

He shared details about their love on the couple's Instagram account. "I was the only girl that was ever her friend," said his girlfriend, Neece. Neece and Pete have been together for three years. But after dating for so long, the pair couldn't keep their relationship a secret anymore. "He was, like, 'I want to tell you something,' and then he told me and I was like, 'When?'" Neece said. Pete said he told his girlfriend he was gay in January, a move he said he made to make their relationship better. "She was kind of struggling with what she was going to do with her life," Pete said. "I wanted her to know I was here for her. I didn't want her to worry about that." The couple said they didn't think anything of Pete's revelation until he mentioned how he'd been brought up by a lesbian couple. "I realized that she probably wasn't the only one," Pete said. And Neece said she saw Pete as a bit of an advocate. "She's more educated, so she understands it more," Neece said. "She knows the obstacles and what it's like in the LGBTQ community." A few weeks after telling Neece, Pete came out to his entire family. They said they are proud of their son and are happy for him. "I don't want him to have to hide that anymore," said Pete's mom, Linda, who knows Pete was gay. "That's my son. I'm proud of that. I'm proud to be his mom." Neece said she's proud of Pete, too. "I'm very, very happy for
