January 8, 2021 - It serves as a base platform for students wishing to further their higher education. The sciences always remain the main subject at this level. Thus, transferring ... knowledge and technology into the hands of the student who goes through this stage is one of the most effective ways in which the knowledge and skills that he will receive will be preserved. And that, I think, is the most important thing that we need to know when we talk about higher education, and we need to think about that today in 2021 about what higher education is. It's not only what we teach, it's also what we don't know how to teach. It can happen.
