
[P3D] Prepar3D V4 Professional Plus 4.0.23.21468 Repack

[P3D] Prepar3D v4 Professional Plus 4.0.23.21468. Version 4 of Prepar3D leaked, and I found a crack on a Russian site. I downloaded and installed it...but Prepar3D didn't start. And I did not find a link to crack on the site, although it was there. I downloaded the new version from the site and ran it. But... Kraken! Startup error... What's the matter? Answer. Well, the fact is that Prepar3D is not just a modeling and visualization program, but a whole package that performs various functions, and a crack is something like a key that simplifies work and makes the capabilities of the package "buttonless". But it doesn't solve all problems. This is just the "key to the door" to a full-time job.
