A powerful and intuitive macro recorder, KEYMACRO allows

---

you to record up to four macros with eight different types of supported actions. **Keyboard Shortcuts:** With a clever macro system, you can create any shortcut with single or multiple macros.

**KeyMACRO** uses various keyboard shortcuts to complete any action quickly.

When you are recording a macro, the action is displayed in a title bar that also indicates the name of the macro. When

---

you are done recording, the text is copied to your clipboard and you can paste it anywhere or save it to file. Keyboard Shortcuts: For example, you can create a macro with a single keyboard shortcut. Hold down the shortcut key and choose the desired action. For example, you can hold down CTRL+S and choose Save from the File menu. The macro recorder then will save a new file named Ctrl+S. You

---

can then choose to assign a keyboard shortcut to the saved macro. Keyboard Shortcuts: For example, you can create a macro with a series of shortcuts. Hold down the shortcut key and choose the desired action. For example, you can hold down CTRL+ALT+F and choose Save from the File menu. The macro recorder then will save a new file named Ctrl+Alt+F. You can then choose to
