Category:Free 3D CAD software Category:Vector graphics editorsQ: Serialize datatable to xml I am trying to serialize my datatable into an xml file using the XmlTextWriter. This is my code: XmlSerializer serializer = new XmlSerializer(typeof(EmployeeTables)); XmlTextWriter xmlWriter = new XmlTextWriter("E:\\BPM.xml", System.IO.FileMode.OpenOrCreate); serializer.Serialize(xmlWriter, dtEmployee); xmlWriter.Close(); But, i'm getting this error cannot serialize member System.Data.DataTable.Rows.get\_Item(System.String) of type System.Data.DataRowView because it does not have a parameterless constructor I am completely lost as to how to fix this. A: You will have to create a new class that encapsulates both the DataTable and the data as a collection of key/value pairs. DataTables do not contain a direct way of serializing to xml. Maybe this is what you are looking for? public class XmlSerializableDatatable : IDisposable { private readonly DataTable \_datatable; private readonly IDictionary \_propertyValues = new Dictionary(); public XmlSerializableDatatable(DataTable dt) { \_datatable = dt; } public void Dispose() { } }
