

1 The character's story takes place in the year 2184, when Spider-Man was abducted by aliens for monstrous experiments. He was freed from his cage when his friends found him. ngg He gained superhuman powers and became one of the members of the resistance. However, he had serious vision problems, so he had to leave school. ng As a teenager, he "squandered" his youth and became a criminal, for which he was later put on the wanted list. He hid under the name with which he was provided with a pseudonym in order to appear law-abiding. The spider even ended up in jail, but he is released when the avenging spiders capture him. In 3183, Spider-Man turned 50 years old
