is worth the money!  
Paytm (sending and receiving transactions are powered by Paytm App)  
5,0 Dec 12, 2017 I really like the features provided by the app, and the app is quite useful. It is good to know that I can see my money balance very easily. Another thing that I like most about this app is that I can access other Paytm apps with one click.

---

I can send money to anybody from different apps. I can also see my transaction history and the history of the money that I have sent to someone. I find this app very useful, and it is the first app that I have used which actually works at a no cost. It shows me money updates on the screen. Overall, I am satisfied with the app and I would highly

---

recommend it to people.
