Roblox has been defined by its founder as “the world’s biggest kids’ island,” and it has given “everyone the power to build and play together.” It is a virtual world with over seven billion “buildable” objects, and more than 15 billion games and activities have been created for the platform. The platform’s growth has been driven by its open platform, where third-party developers can create games and content using a programming language called Lua. Roblox is free to play, with a virtual currency called Robux used for in-game purchases. Robux can be used to purchase game assets, purchasing power, virtual currency, avatar items, access to premium servers, and upgrades. Roblox Name: Roblox is a robot Welcome to the best online game platform! Roblox is an online game platform and game creation system developed by Roblox Corporation that allows users to program games and play games created by other users. Created by David Baszucki and Erik Cassel in 2004 and released in 2006, the platform hosts user-created games of multiple genres coded in the programming language Lua. For most of Roblox's history, it was relatively small, both as a platform and a company. Roblox began to grow rapidly in the second half of the 2010s, and this growth has been accelerated by the COVID-19 pandemic. Roblox is free to play, with in-game purchases available through a virtual currency called Robux. As of August 2020, Roblox had over 164 million monthly active users, including more than half of all American children under 16.

Although Roblox has received generally positive reviews from critics, it has faced criticism for its moderation, microtransactions, and exploitative practices directed toward children.
